

Magnum Multi-adjustable Bench LP

MG-A82

The Magnum Multi-adjustable Bench is designed for maximum flexibility and comfort. The low 46 cm / 17.8" floor-to-bench height minimizes lower back stress and prevents arching. The bench allows for eight levels of angle adjustment to maximize exercise variety (0–75 degrees). The seat and back pad move in unison, minimizing adjustments and providing the perfect seat-to-pad angle at each setting. A design featuring less than 2.5 cm / 1" of space between seat and back pad enhances comfort. The back pad offers increased width at the shoulders to provide added stability during lifts. Additionally, the back pad is bolted to the frame's center to enhance support and stability while preventing pad flex. It includes bolted-on end caps with frame covers to protect against wear and tear, plus transport wheels and an ergonomic handle for easy portability. Rated for a maximum user weight of 185.75 kg / 350 lbs. and a maximum training weight of 272 kg / 600 lbs.

TECH SPECS

PRODUCT WEIGHT	55 kg / 121.5 lbs
MAX USER WEIGHT	159 kg / 350 lbs
