

Go Series Leg Extension

GO-S71

Help new users improve their lower-body strength with a leg extension designed for easy use and quick transitions. An extra-large seat offers excellent support, a self-adjusting tibia pad provides a comfortable starting position, and adjustable range of motion lets users build strength in a way right for their body.

- Large oversized seat provides comfort and confidence during use.
- Self-aligning tibia pad automatically adjusts to a comfortable start position.
- Low stack height allows users and staff to easily see through a facility.
- Optional Incremental Weight (GO-IW) available for small 2.3-kg / 5-lb. weight increments.
- Large color-coded placard helps users identify muscles targeted (upper, core, lower body), as well as start/finish positions and adjustments (if applicable).
- Compact footprint, combined with a stack-to-stack design, allows for more products in a smaller space.
- Range of Motion adjustment allows users to choose starting position based on knee comfort.
